
Full Stack Developer C# (m/f)

RefNr. 57372/IV | 26.08.2019

Our Client is an Austrian software testing company in Vienna, who is an expert in innovative functional testing technologies. They are looking for a Full Stack Developer (m/f) who is proficient in the newest technologies and open for new challenges. Join their Engineering team to keep up the pace with the company's platform for highly agile development cycles.

Arbeitszeit: Vollzeit

Ort: W

Tasks:

- As a Full Stack Developer, you are comfortable to create new functionality in its entirety (backend as well as frontend)
- As a key player in one of the company's self-organizing teams, you actively contribute to the development of their products
- Develop valuable increments for their product according to the company's vision with the newest technologies

Qualifications:

- 3+ years of software development experience in C#
- Experience with storage technologies like ORM and databases
- Know-How in API- and Domain-Driven-Design
- Solid understanding and experience with Angular, HTML and CSS
- Docker and/or Kubernetes knowledge is a plus
- Motivated by achieving innovative results and approach your tasks in a solution-oriented manner

What our customer offers:

- Attractive salary and variable compensation package
- Working with the newest technologies
- Flexible working hours
- Wide range of responsibilities & a variety of career opportunities
- Flat hierarchy
- An annual pass for public transport
- Modern office in Vienna with a chill zone (Virtual Reality, PlayStation, Wii U, table football, etc.)
- Great events for employees

According to your experience and qualification, the annual gross salary will start at EUR 43.000,-
